

Coping Cap-curved

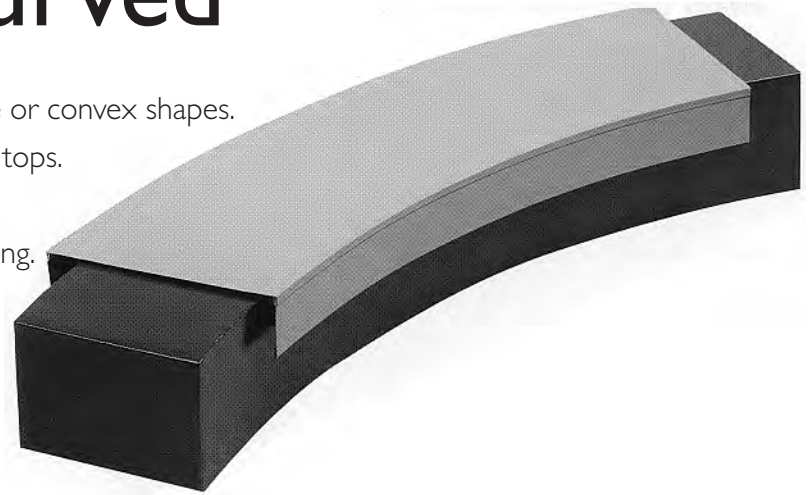

Curved coping caps are offered in either concave or convex shapes.

Coping caps are offered with horizontal or sloped tops.

A $\frac{3}{4}$ " drip edge on one or both sides is optional.

Radius locking cleat provided for one side of coping.

$\frac{1}{2}$ " of width is added to top of coping to accommodate material thickness.

We offer curved coping caps in the following materials:

Aluminum (mill or Kynar finish)	.032
Steel (mill or Kynar)	24 gauge
Copper	16 ounce
